

## Water Filter Housings

Application	Features
<ul style="list-style-type: none"> <li>• Use for Water Filtration to purify water from any source to drinkable standard</li> <li>• Purification for home, office or small industry</li> <li>• Choose from a range of filters to remove chemicals, heavy metals, particle contaminants, soften water</li> </ul>	<ul style="list-style-type: none"> <li>• Made from high quality BPA free, UV Safe plastic Won't release toxic poisons!</li> <li>• NSF Certified</li> <li>• Supplied with mounting bracket, screw, spanner</li> <li>• Brass threaded ports for strength</li> <li>• Rubber O-Ring in lip seal for water tightness</li> <li>• Cap with Pressure relief valve for easy housing removal</li> <li>• Use as a single unit or join together with connectors</li> </ul>

Model	Description	Cartridge Size Outside Diameter mm	Port Size mm	External Dimensions Width x Length mm	Working Pressure PSI	Flow Rate LPM	Max Temperature Celcius
121-10B	10" Standard	60-68.5	20	130 x 330	175	15	37
122-20	20" Standard	60-68.5	25	125 x 580	90	30	37
124-10	10" Jumbo	110mm	25	180 x 350	90	50	37
124-20	20" Jumbo	110mm	25	175 x 620	90	50	37

Filter Type	Removes/Reduces
PP Spun (PP)	Sediment and particles. 20, 5, 1 Micron
Carbon Block (CTO)	Organics, chlorine, chemicals, pesticides, odours, taste issues
Granular Carbon (GAC ) 10"/20" Standard sizes only	As for carbon
KDF - 10"/20" Standard sizes only	Heavy metals, Arsenic, mineral scale
ION - 10"/20" Standard sizes only	Softens water through Ion exchange
